

Thrive Nursery offers a one-time (per purchased tree) warranty on our trees. The warranty is for 50% of the original purchase price of the tree/s, and it is for a full calendar year from the date the tree/s was purchased. The dead tree must be brought back, along with purchase receipt to redeem warranty.

The product's purchase receipt MUST be presented to redeem warranty! (Keep your receipt, we do not keep records of your purchases).

Thrive Nursery does not warranty perennials, grasses, shrubs, or discounted/b-grade trees. We will not warranty any tree/s planted in a USDA cold hardiness zone not suited to the tree/s' cold hardiness zone.

In addition, we do not warranty any tree/s damaged by environmental and non-environmental hazards (i.e. wind damage or weed whip trunk damage). We also will not warranty any B&B tree where the burlap and wire basket were completely removed (see reverse side for planting guide). Thrive Nursery does not warranty any plants obtained through a landscape contractor.

Mimosa 'Summer Chocolate'
Albizia julibrissin

Height: 20'

Width: 15'

Zone: 6

Flower: pale pink

Water/Soil: well
drained

Easily grown in average, well-drained soils in full sun to light shade. Prefers rich, light soils. Tolerates a wide range of soils, however, including poor ones. Tolerates alkaline conditions. Tolerates drought, but best growth occurs with regular watering.

Mimosa 'Tropical Dream'
Albizia julibrissin

Height: 20-30'

Width: 15-20'

Zone: 6

Flower: pale pink

Water/Soil: well
drained

A versatile, colorful tree with a striking fern-textured foliage. Large, cherry-pink fragrant flowers appear profusely in the summer. Loves tropical and subtropical climates and takes well to hot and humid climates. Creates an exotic umbrella of dappled shade.

Mimosa 'Chocolate Fountain'
Albizia julibrissin

Height: 15'

Width: 10'

Zone: 6

Flower: pale pink

Water/Soil: average,
dislikes wet heavy clay
soils

A stunning small tree, grown for its weeping form and striking chocolate colored fern like foliage. Pink flower puffs appear in summer adding to this plant's exotic appeal. Where plants are not reliably hardy, it can be grown as a striking container specimen, and wintered over. This small can be pruned hard to work in smaller spaces.

Serviceberry 'Princess Diana'
Amelanchier grandiflora

Height: 15-20' **Width:** 15'

Zone: 3

Fall Color: orange

Water/Soil: average, well drained, some drought tolerance

This is a small, usually multi-trunked understory tree which flowers in April followed by edible fruits in June. Finely-toothed, oval-lanceolate leaves emerge with bronze tints in spring, mature to dark green, then turn brilliant red to orange-red in fall.

Serviceberry 'Autumn Brilliance'
Amelanchier x grandiflora

Height: 15-25'

Width: 15-25'

Zone: 4

Fall Color: orange

Water/Soil: average,
well drained

Flowers bloom in April followed by edible fruits in June. Berries resemble blueberries in taste and may be used in jams, jellies and pies or eaten fresh. Finely-toothed, oval-lanceolate leaves emerge with bronze tints in spring, mature to dark green in summer and turning brilliant red to orange-red in fall.

Serviceberry 'Autumn Brilliance'
Amelanchier grandiflora

Height: 15-25'

Width: 15-25'

Zone: 4

Fall Color: orange

Water/Soil: well drained

Serviceberries display white flowers in April followed by edible fruits in June. Finely-toothed, oval-lanceolate leaves emerge with bronze tints in spring, mature to dark green in summer and turning brilliant red to orange-red in fall.

Serviceberry 'Spring Flurry'
Amelanchier laevis

Height: 25'

Width: 20'

Zone: 4

Fall Color: Orange

Water/Soil: average,
well drained

A street tree Amelanchier! This Schmidt introduction has exceptional single stem form. A dominant central leader supports strongly upward-oriented scaffold branches. Pure white blooms produce heavily in spring. These give way to healthy green foliage that turns orange in the fall.

Serviceberry 'Rainbow Pillar'
Amelanchier canadensis

Height: 15'-20'

Width: 8'-10'

Zone: 4-7

Fall Color: Scarlet

Water/Soil: average,
well drained

Rainbow Pillar Serviceberry is covered in stunning clusters of white flowers rising above the foliage in early spring before the leaves. It has green deciduous foliage. The oval leaves turn an outstanding scarlet in the fall. It produces black berries in late spring.

Redbud 'Burgundy Hearts'
Cercis canadensis

Height: 20'

Width: 25'

Zone: 5

Flower: fuchsia

Water/Soil: prefers
moist, rich soils

'Burgundy Hearts' Redbud displays small, pea-like flowers along the branches from early to mid spring before foliage emerges. It has attractive burgundy foliage which emerges red then fades to purple. The heart-shaped leaves are highly ornamental and turn yellow in fall.

Eastern Redbud
Cercis canadensis

Height: 25'

Width: 25'

Zone: 4

Fall Color: yellow

Water/Soil: Prefers moist,
rich soils.

Easily grown in average, medium moisture, well-drained soils in full sun to part shade. Part shade is best in hot summer climates. Performs best in moderately fertile soils with regular and consistent moisture. Avoid wet or poorly drained soils. Flowers are attractive to pollinators.

Redbud 'Forest Pansy'
Cercis canadensis

Height: 25'

Width: 25'

Zone: 5

Flower Color: Pink

Water/Soil: Prefers
moist, rich soils.

Beautiful landscape tree valued for its brilliant scarlet-purple emerging foliage, maturing to maroon. Rosy-pink flowers bloom on bare branches before leaves emerge in spring, making this spring flowering tree positively look like it's glowing.

Weeping Redbud 'Lavender Twist'
Cercis canadensis

Height: 6'

Width: 6-8'

Zone: 5

Fall Color: yellow

Flower Color: purple-pink

Water/Soil: Prefers moist,
rich soils.

Bright purple-pink flowers cover bare, weeping branches in early spring. A truly distinctive landscape choice that will develop a beautiful umbrella of cascading branches covered in heart shaped leaves.

Weeping Redbud 'Ruby Falls'
Cercis canadensis

Height: 10-15'

Width: 8-10'

Zone: 5

Flower: purple-pink

Fall Color: yellow

Water/Soil: prefers moist,
rich soils

A purple-leaved weeping redbud with clusters of lavender-red, sweet pea-like blooms in spring. Small, semi-glossy, heart-shaped leaves turn yellow in fall.

Weeping Redbud 'Pink Heartbreaker'
Cercis canadensis

Height: 10-12'

Width: 8'

Zone: 5

Fall Color: yellow

Water/Soil: Prefers
moist, rich soils.
Dislikes heavy, clay
soils.

'Pink Heartbreaker' is a profuse bloomer with bright lavender-pink flowers in Spring. This weeping Redbud has a more upright habit (as compared to other weeping redbud) with weeping side branches. New leaves emerge red in color becoming dark green at maturity.

Redbud 'Rising Sun'
Cercis canadensis

Height: 10-12'

Width: 6-8'

Zone: 5

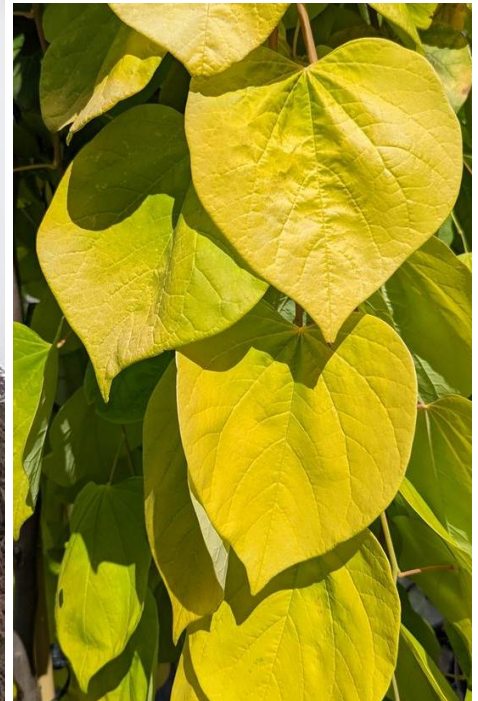

Fall Color: yellow

Flower Color: rosy-pink

Water/Soil: prefers moist,
rich soils. Dislikes heavy,
clay soils.

Abundant pea-like rosy-lavender flowers appear early spring before foliage. Heart-shaped deep apricot leaves appear and mature through shades of orange, gold and yellow with all colors present at once! Foliage turns a shade of lime green in the summer heat. Resists heat and burn.

Redbud 'Golden Falls'
Cercis canadensis

Height: 6'-10' **Width:** 3'-5'

Zone: 5-9

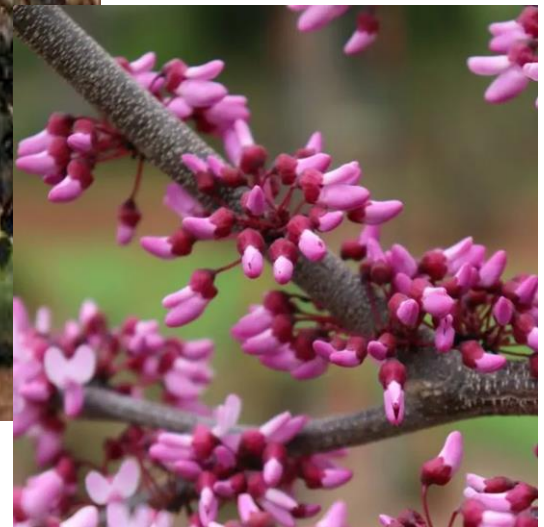

Fall Color: gold/yellow

Water/Soil: prefers moist, rich soils. Dislikes heavy, clay soils.

'Golden Falls' shows a distinct weeping growth habit. Flowers are produced abundantly in spring before leaf-out and are light purple in color. Use this dramatic tree as a specimen, accent or in small areas as patios or even containers.

Redbud 'Midnight Express'
Cercis canadensis

Height: 15'-20' **Width:** 15'

Zone: 5-9

Blossom Color: pink

Water/Soil: prefers moist, rich soils. Dislikes heavy, clay soils.

Midnight Express® redbud has the gorgeous pink pea-shaped blooms redbuds are known for. It is a rich burgundy color with handsome green undertones and it stays handsome for the entire growing season.

Weeping Redbud 'Vanilla Twist'
Cercis canadensis

Height: 10' **Width:** 6'

Zone: 5

Flower: clear white

Fall Color: yellow

Water/Soil: prefers
moist, rich soils.

Dislikes heavy, clay
soils.

Beautifully cascading branches burst out into masses of striking little white blooms. Heart-shaped leaves fill the tree as blooms fade and remain light green throughout the season. An adorable, small landscape specimen.

Weeping Redbud 'Pink Pom Poms'
Cercis canadensis

Height: 15' **Width:** 12'

Zone: 6

Fall Color: yellow

Water/Soil: prefers moist, rich soils. Dislikes heavy, clay soils.

Uniquely double petaled flowers are borne in dense, pendulous clusters along bare branches in early spring.

'Merlot' Redbud
Cercis canadensis

Height: 12'-15' **Width:** 12'

Zone: 5-9

Flower Color: Pink

Water/Soil: prefers moist,
rich soils.

Perfect for smaller landscapes, this phenomenal hybrid has lustrous, dark purple leaves. 'Merlot' offers excellent drought tolerance and thicker, glossier leaves that stand up to summer heat. Tight, dense, semi-upright habit. Bright lavender-pink flowers in spring.

'Flame Thrower' Redbud
Cercis canadensis

Height: 15'-20' **Width:** 15'

Zone: 5-9

Fall Color: Orange/Red

Water/Soil: prefers moist,
rich soils.

Heart-shaped foliage emerges in a strong burgundy red that turns yellow, then green as it matures. As each leaf grows, you'll see a beautiful blend of multiple colors on every branch, setting your garden alight and giving you the best yard on the block.

Cockspur Hawthorn 'Cruzman' Crusader
Crataegus crusgalli

Height: 20' **Width:** 20'

Zone: 4

Flower: White

Fall Color: orange to scarlet

Water/Soil: average, well
drained

Dark green leaves have wedge-shaped bases. Foliage turns orange to red in fall. Flowers do produce an unpleasant fragrance and are followed by rounded fruits that ripen to deep red in fall and are persistent. Fruits are edible but are best left for birds.

Washington Hawthorn
Crataegus phaenopyrum

Height: 25' **Width:** 20'

Zone: 4

Flower: White

Fall Color: orange & red

Water/Soil: well drained

White flowers in early June start the color show. Reddish-purple leaves turn dark green, then orange, scarlet or purple. Small, glossy red fruits stay on tree into winter, and are preferred by songbirds.

Hawthorn 'Snowbird'
Crataegus x mordenensis

Height: 12' **Width:** 15'

Zone: 4

Flower: White

Fall Color: yellow

Water/Soil: well drained

A small upright rounded tree with deeply lobed dark green glossy foliage with yellow fall color. Double white clusters of flowers in spring are followed by sparse red berries. Very cold hardy.

Hawthorn 'Paul's Scarlet'
Crataegus laevigata

Height: 20' **Width:** 15'

Zone: 4

Flower: dark pink

Fall Color: orange & yellow

Water/Soil: average, well drained

Brilliant, scarlet colored, double flowers appear in spring among small, green leaves followed by scarlet fruit. Small, showy, thorny tree with a dense rounded habit.

Russian Hawthorn
Crataegus ambigua

Height: 15-20'

Width: 15-18'

Zone: 4

Flower: White

Fall Color: multi color

Water/Soil: moist, well
drained

Curious, twisting branches with short thorns form a small tree or large shrub with a rounded habit. Soft green, finely cut leaves turn to shades of yellow, orange, and red in fall. White flowers are followed by deep red berries that persist into winter that birds can feed on when little food is available.

Columnar Tulip Tree 'Fastigiata'
Liriodendron tulipifera

Height: 50-60'

Width: 30-40'

Zone: 5

Flower: yellowish-green
with an orange halo

Fall Color: yellow

Water/Soil: best in
moist, rich, sandy loam
soils

Tulip tree, also called yellow poplar, is a large, stately tree. It has a tall pyramidal to broad conical habit. It is named and noted for its cup-shaped, tulip-like flowers that bloom in spring. Flowers are yellow with an orange halo. Flowers appear after the leaves are fully developed.

Tulip Tree 'Emerald City'
Liriodendron tulipifera

A refined cultivar of the familiar tulip tree, this uniform growing selection is straighter and more upright, with a dominant central leader and deeper green, slightly glossy foliage.

Height: 45' **Width:** 20'

Zone: 5

Flower: yellowish-green

Fall Color: yellow

Water/Soil: best in moist, rich, sandy loam soils

Tupelo 'Wildfire'
Nyssa sylvatica

Height: 30' **Width:** 15-20'

Zone: 5

Fall Color: yellowish-orange
to purplish

Water/Soil: best in moist,
rich, sandy loam soils

This tupelo offers an extra season of brightly colored foliage. Spring brings a surprising flush of deep red new growth, which continues as long as new leaves emerge. Summer foliage is green, changing to Fall tints of orange yellow to purplish red.

Tulip Tree
Liriodendron tulipifera

Beautiful, large garden tree with unique bluish-green leaves gives spectacular show of yellow fall color. In warm season, displays handsome tulip-shaped greenish-yellow and orange flowers.

Height: 40-50' **Width:** 30-40'

Zone: 5

Flower: yellowish-green with an orange halo

Fall Color: yellow

Water/Soil: best in moist soils

Dogwood 'June Snow'
Cornus controversa

Height: 25' **Width:** 30'

Zone: 4

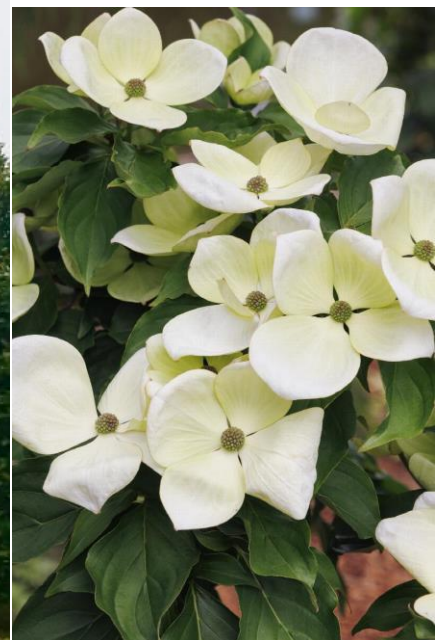

Flower: White

Fall Color: multi

(Water/Soil: moist, well
drained

Fast growing and wide spreading, with branches developing a horizontally tiered appearance. Flat topped clusters of white flowers often exceed 6" in diameter! Outstanding fall color; mottled orange-yellow, red, and purple-red.

Dogwood 'Venus'
Cornus kousa

Height: 15'-20' **Width:** 20'

Zone: 5-8

Flower: White

Fall Color: multi

Water/Soil: moist, well
drained

Suitable for small gardens, Venus Dogwood is a small deciduous tree with seasons of interest. In spring, creamy-white flowers cover the tree. In the fall, it offers spectacular colors of yellow, orange, red and purple.

Magnolia

Royal Star

Rose Marie

Galaxy

Moonglow

Butterflies

Shirazz

Height: X Width: varies per variety

Zone: 5

Water/Soil: best grown in rich, neutral to slightly acidic

Upright, tulip-like, flowers in early spring. Most magnolia flowers have some type of pleasant fragrance. Foliage remains attractive throughout the growing season but produces little fall color.

'Bracken's Brown' Magnolia
Magnolia graniflora

Height: 20' **Width:** 15'

Zone: 5-9

Flower: White

Water/Soil: moist-average
well drained

The Bracken's Brown is an evergreen magnolia known for its large fragrant flowers and dense, uniform growth habit. The foliage is dark green on top and a coppery-brown underneath. The tree produces huge, 8-inch-diameter, fragrant, white blossoms in late spring. Makes a striking garden specimen.

'Edith Bogue' Magnolia
Magnolia graniflora

Height: 20' **Width:** 15'

Zone: 5-9

Flower: White

Water/Soil: moist-average
well drained

Edith Bogue is an improved variety that works beautifully, even in smaller gardens. It features attractive bark and a well-balanced branch structure, so it looks nice all year-long. In spring, you'll be thrilled to see creamy white petals fall open from the dramatically tall, prominent flower buds.

'Jane' Magnolia
Magnolia graniflora

Height: 10'-15' **Width:** 10'

Zone: 5-9

Flower: Pink

Water/Soil: moist-average
well drained

Offering vibrant pink blooms and a longer season of color, the Jane Magnolia is in a league of its own when it comes to the Magnolia family. Its tidy stature is well-suited to compact gardens, where you can plant as an accent in plant beds, borders, or in a container.

Japanese Tree Lilac 'Ivory Silk'
Syringa reticulata

Height: 20'

Width: 15'

Zone: 3

Flower Color: White

Fall Color: Brownish-Yellow

Water/Soil: Average, well drained

Beautiful creamy-white blooms with a captivating fragrance spring through summer. A small tree that forms a rounded crown with rich green foliage on attractive reddish-brown bark. Makes a perfect accent or background plant. Attracts butterflies and hummingbirds when in flower.

'Bloomerang' Lilac Tree
Syringa

Height: 7-8' **Width:** 5-6'

Zone: 3

Flower Color: Purple-pink

Water/Soil: average, well
drained, easy to grow

Bloomerang is a reblooming dwarf lilac. Purple-pink, sweetly-fragrant flowers arranged in dense, terminal clusters cover this tree with a profuse bloom in late April and May with continued rebloom into August.

Dwarf Korean Lilac, Tree Form 'Palibin'
Syringa

Height: 7'

Width: 4'

Zone: 3

Flower Color:

Lavender-pink

Water/Soil:

average, well
drained, easy to
grow

A beautiful and popular patio shrub with numerous attributes; striking spikes of fragrant lilac-pink flowers in late spring, small rounded foliage and a uniform compact ball shape grafted onto a standard, best used as a solitary accent in the garden. Flowers are excellent for cutting!

'Miss Kim' Lilac Tree
Syringa patula

Height: 6'-8' **Width:** 6'-8'

Zone: 3-8

Flower: Pink

Water/Soil: moist-average
well drained

Known for its delightful fragrance, the Miss Kim Lilac Tree is a sight to behold. You'll get heavily clustered lavender-blue lilac blooms around May, then pale pink blooms in summer. It is equally impressive in autumn when its bright green foliage transitions to dark purple.

'Snow Fountain' Weeping Cherry
Prunus

Height: 10'-15'

Width: 6'-12'

Zone: 3-8

Flower: White

Water/Soil: moist-average
well drained

Naturally weeping branches are covered with showy, white flowers on this compact, hardy specimen for the landscape. Produces very few red-black ornamental fruit in summer. Very disease and insect resistant. A beautiful small yard tree.

Crabapple 'Brandywine'
Malus

Height: 10' **Width:** 12-15'

Zone: 3

Flower: pink

Fall Color: reddish-orange

Water/Soil: moist-average
well drained

This is an upright, broad-rounded crabapple with fragrant, rose pink, double flowers that bloom in abundance in spring. Flowers are followed by large, lime green fruit. Crabapples do not persist and may cause some clean-up. Silvery twigs provide some winter interest.

Crabapple 'Klehms Improved Bechtel'
Malus

Height: 20' **Width:** 18'

Zone: 4

Flower: pink

Fall Color: orange to
orange-red

Water/Soil: moist-average
well drained

Klehm's Improved Bechtel' is a selection of prairie crabapple. The leaves are green with fuzzy, whitened undersides and small jagged teeth. In spring, pink buds appear on the twigs, opening to fragrant, double pale pink flowers that attract honeybees. The fruits that follow are sour but edible.

Crabapple 'Pink Princess'
Malus

Height: 6-8' **Width:** 10-15'

Zone: 4

Flower: rose pink

Fall Color: yellow

Water/Soil: moist-average well drained, tolerant of varied soils

Pink Princess' is a dwarf form of Sargent crabapple.

Purplish buds open in spring to rose-pink flowers followed by small, deep red crabapples that are persistent.

Crabapple 'Red Jewel'
Malus

Height: 15' **Width:** 12'

Zone: 4

Fall Color: orangish

Water/Soil: moist-average well drained, tolerant of varied soils

Bright red fruits are among the most profuse and persistent of any crab, holding fast until spring in mild winter areas, when they are replaced by an abundance of white blossoms.

Crabapple 'Royalty'
Malus

Height: 15'

Width: 15'

Zone: 4

Flower: red

Water/Soil: moist-average
well drained

This Crabapple is an outstanding ornamental with single, dark red blossoms in spring that produce large, dark red fruit in the fall. The new foliage is a glossy rich purple with a green undercast, turning purple-green in mid-summer and brilliant purple in the fall.

Crabapple 'Marilee'
Malus

Height: 18-24' **Width:** 8-10'

Zone: 4

Flower: white, pink tinged

Water/Soil: moist-average
well drained

Pink buds open to unusually large, white, pink tinged double blooms. Unique for its stiffly upright, narrow form and **virtually fruitless** nature, it is an excellent choice for courtyard settings and streetscapes, and for use near utility lines.

Crabapple 'Louisa'
Malus

Height: 10' **Width:** 12'

Zone: 4

Flower: True Pink

Water/Soil: moist-average
well drained

A very fine crabapple, Louisa is a dense deciduous tree of rounded form with gracefully weeping branches over a long season of interest. An excellent, elegant weeper with good disease resistance. A beautiful ornamental tree for small gardens.

Crabapple 'Golden Raindrops'
Malus

Height: 20' **Width:** 15'

Zone: 3-7

Flower: White

Water/Soil: moist-average
well drained

Fine textured, deeply cut foliage gives this unusual crabapple a delicate appearance. The form is elegant, with slender limbs spreading horizontally from upright branches. The abundant golden yellow fruit is truly tiny.

Crabapple 'Gladiator'
Malus

Height: 20' **Width:** 10'

Zone: 3-7

Flower: Pink

Water/Soil: moist-average
well drained

Gladiator Crabapple is an alluring ornamental tree, and it's the pop of color landscape needs! In spring, bright pink flowers contrast its dark glossy bronze-purple leaves. This tree has a small upright form which lends itself to tight spaces.

Crabapple 'Royal Gem'
Malus

Height: 5' **Width:** 7'

Zone: 4

Flower: rose-pink

Water/Soil: moist-average
well drained

A super little tree for small garden areas. Red flowers, dark red fruit, bronze/green foliage and yellow fall color. The flower is rose red and 3/8" persistent fruit is dark red. Very disease resistant.

Crabapple 'Coralburst'
Malus

Height: 10' **Width:** 12-15'

Zone: 3

Flower: pink

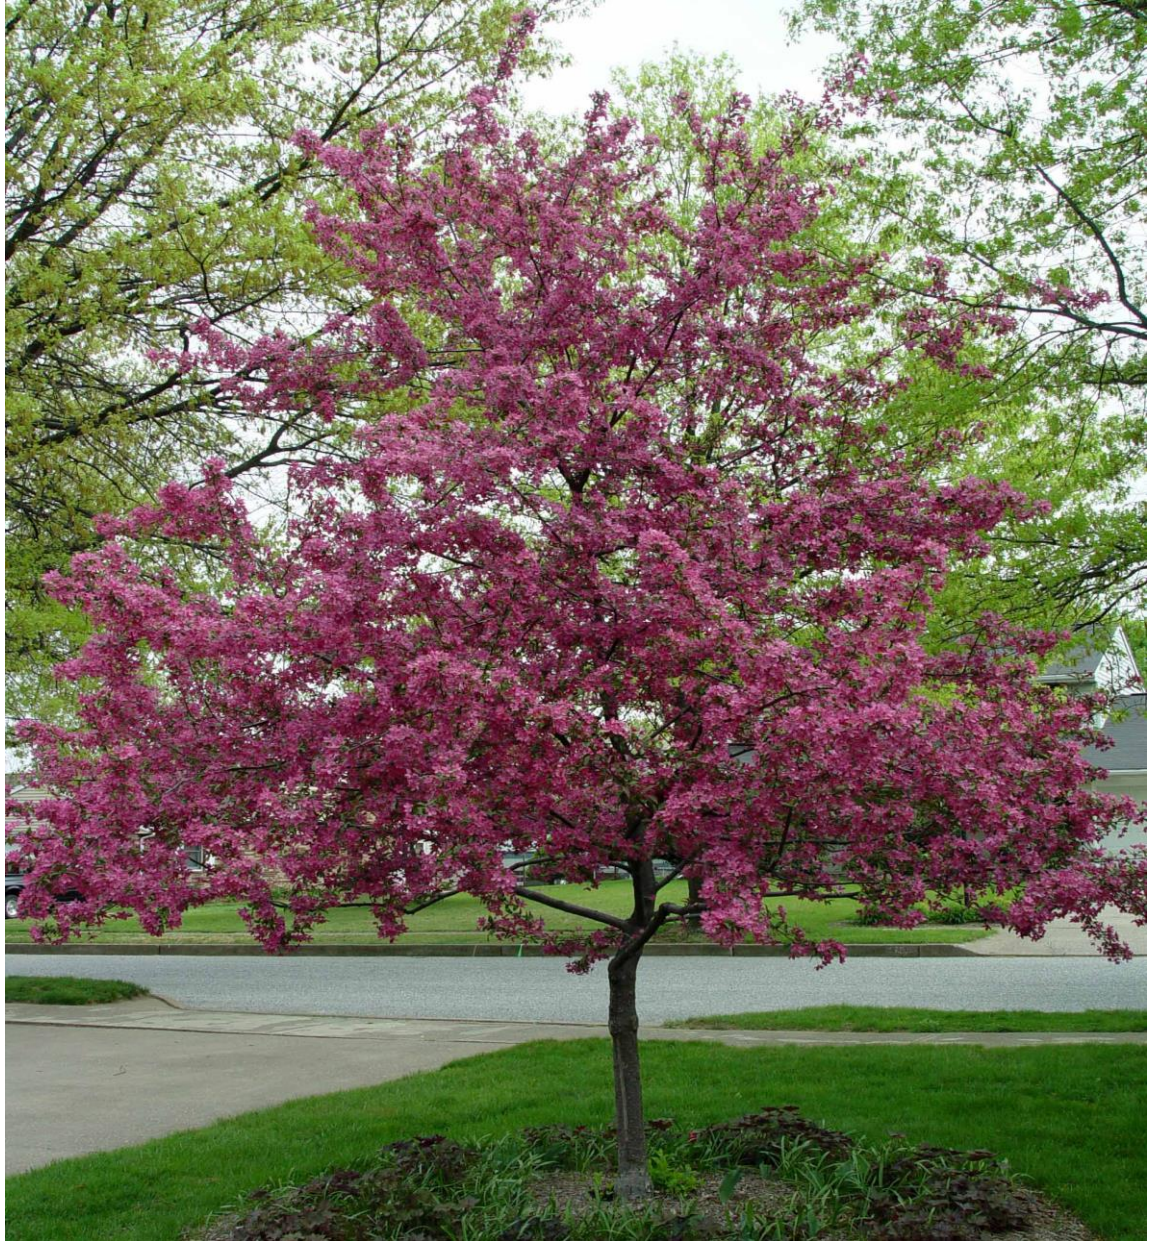

Fall Color: yellow

Water/Soil: moist, rich,
sandy loam soils

This compact, slow growing tree forms a dense, symmetrically rounded crown with deep green foliage. Coral pink buds open to semi-double, rose-pink flowers. Produces a light crop of small, bronze-red ornamental fruit.

Crabapple 'Prairifire'
Malus

Height: 18-20'

Width: 15-18'

Zone: 4

Flower: deep pink

Water/Soil: well drained

An outstanding flowering tree with an upright form that becomes rounded with age. Reddish new foliage matures to a dark green. Deep pink, spring flowers produce persistent, small, dark red-purple fruit.

Crabapple 'Royal Beauty'
Malus

Height: 5-10'

Width: 5-10'

Zone: 4

Flower: red

Water/Soil: moist-
average well
drained, tolerant of
varied soils

Malus 'Royal Beauty' has beautiful deep red/purple flowers that decorate the gracefully weeping branches. The flowers are followed by small, dark-purple persistent fruits in Fall. The fruits make a good display in the winter and are popular with a variety of wildlife.

Crabapple 'Orange Crush'
Malus

Height: 12-15'

Width: 12-15'

Zone: 4

Flower: reddish-pink

Water/Soil: moist-
average well drained

In spring, dark, reddish-pink flowers cover its compact round form before purple foliage begins to emerge. The leaves will become greener as the season progresses, then turn yellow with hints of maroon and orange in the fall. Persistent orange-red fruit provides fall interest.

Crabapple 'Snowdrift'
Malus

Height: 15-18'

Width: 15-18'

Zone: 4

Flower: white

Water/Soil: moist-average
well drained

'Snowdrift' is a rounded, tree with ovate, glossy, dark green leaves. Red buds open to single white flowers with a light, pleasant fragrance. Flowers are followed by masses of small, orange-red persistent fruit that are great for birds. Ovate, glossy, dark green leaves

Crabapple 'Sparkling Sprite'
Malus

Height: 10-12'

Width: 10-12'

Zone: 4

Flower: white

Water/Soil: moist-average
well drained

Pink buds open to white flowers and practically smother the dense, rounded head of this compact dwarf. Summer foliage is especially bright green. An abundant fruit crops persists well into winter, slowly turning from golden yellow to orange.

Crabapple 'Lollipop'
Malus

Height: 8-10' **Width:** 8-10'

Zone: 4

Flower: white

Water/Soil: moist-average
well drained

A small, uniform tree with a compact, rounded crown. Pure white flowers in spring. Half inch fruit is yellow and persistent. A great patio tree with little to no pruning.

Crabapple 'Spring Snow'
Malus

Fruitless with pure white flowers. Great crabapple to use in patios and court yards. Also makes a good park strip tree. Tolerates harsh soils well.

Height: 25' **Width:** 20'

Zone: 4

Fall Color: Yellow

Soil/Water: average, well drained

Crabapple 'Royal Raindrops'
Malus

Height: 15-18'

Width: 12-15'

Zone: 5

Water needs:
average, well drained

Bright pinkish red flowers combine with purple cutleaf foliage. Orange-red fall color. Fruit is small, few, and persistent, which means that they do not drop. One of the cleanest crabapples, and one of the most brilliant in color!

Crabapple 'Perfect Purple'
Malus

Height: 20' **Width:** 20'

Zone: 4

Flower: pinkish-purple

Water/Soil: moist-average well drained, tolerant of varied soils

Deep pink blooms set the spring stage for dark purple foliage that crowns the perfectly rounded canopy of this attractive tree. Very cold hardy, this crab has performed well in the North and Inter-mountain regions.

Crabapple 'Raspberry Spear'
Malus

Height: 20' **Width:** 8'

Zone: 4

Flower: Dark Pink

Water/Soil: Moist-average well drained, tolerant of varied soils.

Deep pink buds open to bright magenta flowers on this tightly columnar crabapple. Clean and disease-free summer foliage holds its dark purple color; bronzing on the older leaves in late summer and early fall, when orange tints appear. Purple-red fruits ripen to deep bright red and persist into late autumn or early winter.

Crabapple 'Sargent Tina'
Malus sargentii

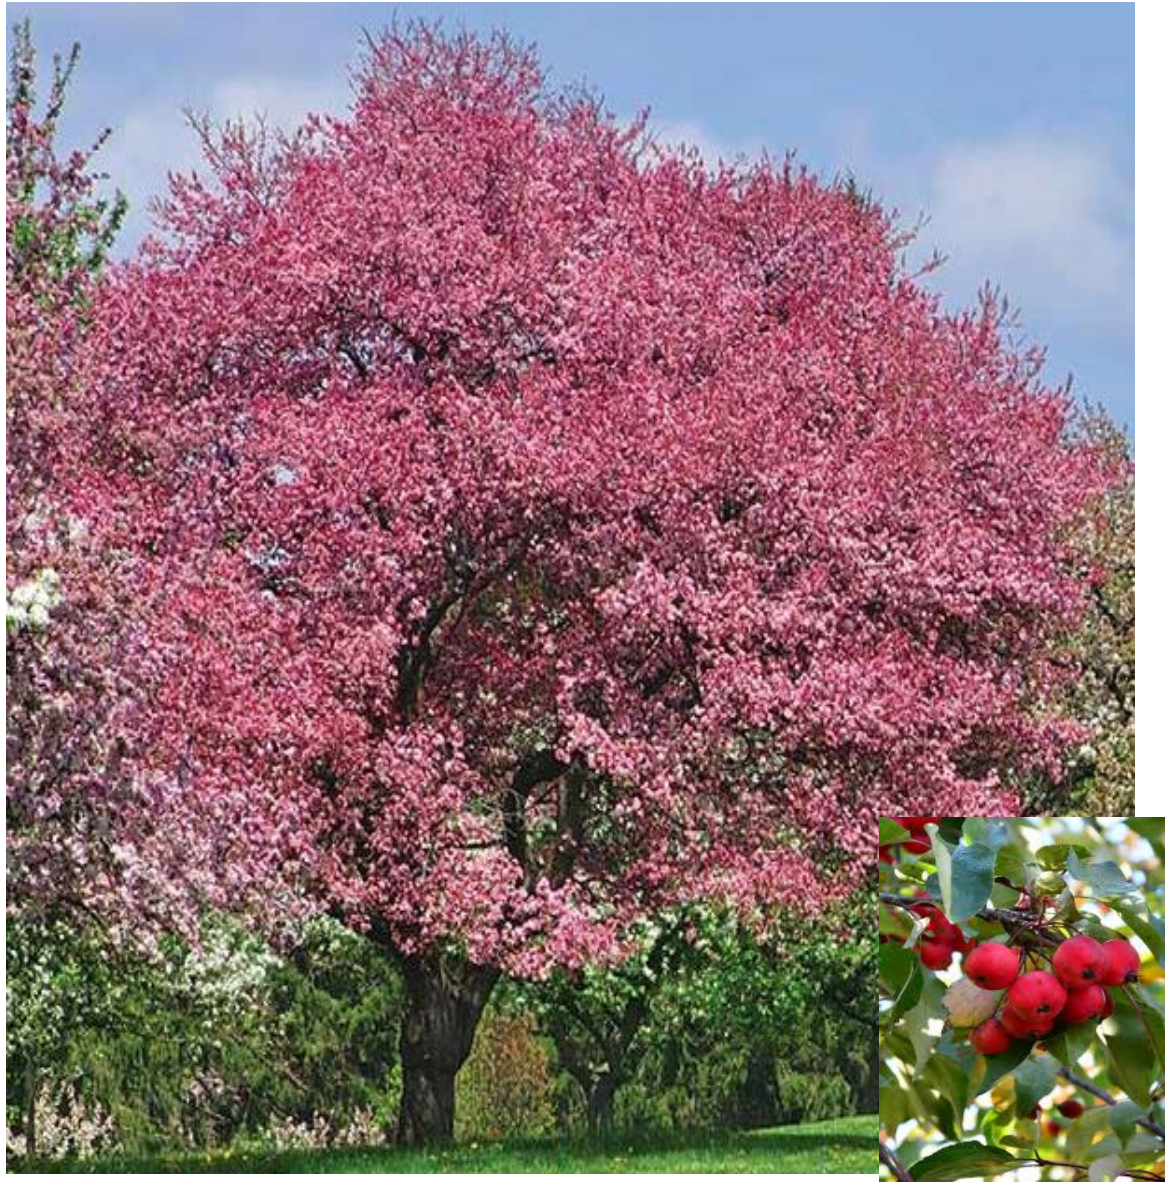

Height: 5' **Width:** 6'

Zone: 5

Water needs: moist, well
drained soil

Tina crabapple is a small, rounded, dwarf tree. In spring, bright red flower buds open to single white flowers. It bears small ¼", bright red fruit in fall.

Crabapple 'Radiant'
Malus

Height: 20' **Width:** 15'

Zone: 4

Flower: deep pink

Water/Soil: well drained,
tolerant of varied soils

Red buds give way to single, reddish-pink flowers followed by bright red crabapples. The fruit is persistent, providing additional interest. Birds are attracted to the fruit. Toothed leaves emerge reddish purple in spring but mature to green by summer.

Crabapple 'Ivory Spear'
Malus

Height: 18' **Width:** 7'

Zone: 4

Water/Soil: Moist-average well drained, tolerant of varied soils.

Deep pink buds open to white flowers on this densely upright crabapple. Bright cherry red fruits contrast well with the dark green leaves and persist into late autumn, when a touch of yellow fall color adds seasonal interest.

Crabapple 'Sentinel'
Malus

Height: 18-20' **Width:** 10-12'

Zone: 4

Flower: white

Water/Soil: moist-average
well drained

The vase shaped growth habit of 'Sentinel' crabapple makes it a perfect selection for street planting and/or beneath utility lines. The small fruit is bright red, Great for birds!

Flowering Cherry 'Accolade'
Prunus

Height: 20' **Width:** 25'

Zone: 5

Flower: pink

Fall Color: red

Water/Soil: moist-average,
well drained, loamy soils

Accolade Flowering Cherry is smothered in stunning clusters of pink flowers along the branches in spring. It has forest green foliage throughout the season that turns brick red in the fall. The smooth dark red bark adds an interesting dimension to the landscape.

Weeping Cherry 'Snow Fountain'
Prunus subhirtella

Height: 12' **Width:** 10'

Zone: 5

Flower: white

Fall Color: gold and orange

Water/Soil: moist-average,
well drained, loamy soils

'Snow Fountain' is a slow-growing, weeping cherry. As a weeping tree, its cascading branches dip all the way to the ground (unless pruned), giving the appearance of a white or snow fountain when covered with pure white flowers in early spring.

Flowering Cherry 'Royal Burgundy'
Prunus serrulata

Height: 20' **Width:** 15'

Zone: 5

Flower: cherry pink

Fall Color: brilliant orange

Water/Soil: moist-average,
well drained, loamy soils

'Royal Burgundy' Flowering Cherry is covered in stunning clusters of fragrant cherry red flowers along the branches in early spring. It has attractive deep purple-tipped dark green foliage which emerges burgundy in spring.

Flowering Cherry 'Akebono'
Prunus x yedoensis

Height: 20' **Width:** 20'

Zone: 5

Flower: soft pink

Fall Color: Gold yellow

Water/Soil: moist-average,
well drained, loamy soils

'Akebono' cherry sports delicate pink flowers in the spring. It is similar in growth habit to Yoshino. Foliage is medium green and turns yellow in the fall. The ½" black fruit is bitter to humans but loved by birds.

Flowering Cherry 'Autumnalis'
Prunus x subhirtella

Height: 20-25'

Width: 15-20'

Zone: 5

Water needs: well
drained

This flowering cherry tree is a landscape stand-out with multi seasonal interest. It is famous for its lovely pink buds and white flowers off in the spring. In addition to the sporadic fall bloom, the foliage turns bronze, yellow or deep-red.

Flowering Cherry 'Kwanzan'
Prunus serrulata

Height: 25' **Width:** 15-20'

Zone: 5

Fall Color: yellow to
orange-bronze

Water/Soil: moist-average,
well drained, loamy soils

A lovely flowering cherry that puts on an incredible early season show with clusters of large, double deep pink blooms backed by bronze-red new growth. It has an upright, vase-shaped branching habit that is perfect for street planting.

Flowering Cherry 'Little Twist'
Prunus incisa

Height: 6-7' **Width:** 6-7'

Zone: 5

Flower: white to pink

Fall Color: maroon

Water/Soil: well drained,
loamy soils

A profusion of semi-pendulous, tightly clustered white flowers with pink centers that turn darker pink with age on stems and shoots that zig-zag. Fall foliage is maroon. Excellent for patio planters, small gardens and courtyards.

Flowering Cherry 'Lemon Splash'
Prunus incisa

Height: 6-10' **Width:** 8-10'

Zone: 5

Flower: pale pink

Fall Color: orange, red, gold

Water/Soil: moist-average,
well drained, loamy soils

A small flowering cherry with a strongly weeping habit. Profuse, pale pink spring blossoms give way to unique variegated leaves with green centers that become more pronounced over the summer months.

Flowering Cherry 'Yoshino'
Prunus x yedoensis

Height: 25'

Width: 25'

Zone: 5

Water needs: well
drained

Fragrant white flowers in 3 to 6-flowered clusters appear before or simultaneous to the emergence of the foliage in a profuse and spectacular early spring bloom. Flowers are followed by small black cherries (1/2" diameter) which are bitter to humans but loved by birds.

Flowering Cherry 'Pink Flair'
Prunus sargentii

Height: 20' **Width:** 12'

Zone: 3-7

Fall Color: orang-red

Water/Soil: moist-
average well drained,

Narrow and upright in form, but compact in height, this flowering cherry is well suited for urban landscapes. It avoids frost damage by flowering a week or two later than is typical of the species. Fall color is consistently bright.

Weeping Cherry 'Pink Cascade'
Prunus

Height: 6-10' **Width:** 6-10'

Zone: 5

Fall Color: orange

Water/Soil: moist-average,
well drained, loamy soils

Bright pink flowers smother the branches of this gracefully weeping cherry, setting it apart from the popular white-blooming Snow Fountains[®] Cherry. This small and delicate garden tree is easy to grow.

Flowering Cherry 'First Blush'
Prunus

Height: 20' **Width:** 8'

Zone: 5

Flower: pink

Fall Color: orange

Water/Soil: well drained,
loamy soils

Double pink flowers smother the branches of this very narrow, upright cherry in early spring. The breathtaking floral display gives way to dark green. Excellent for planting in park strips.

Rose of Sharon - Tree Form
Hibiscus

Height: 8-12' **Width:** 6-8'

Zone: 5

Bloom: summer/mixed
colors, see tags

Water needs: average, moist,
well drained soil

This hardy hibiscus is an easy-to-grow grafted shrub. It is valued for its large summer blossoms which add color to the landscape when few other plants are in bloom. Flowers are an open trumpet-shape and come in a variety of colors.

'Big Cis' Flowering Plum
Prunus cerasifera

Height: 10'-15' **Width:** 15'

Zone: 4

Flower: pink

Water/Soil: average, well
drained

Big Cis plum was selected and propagated for its dwarf tree form. It has the same purple foliage and early blooming white flowers as the Purple Leaf Sand Cherry. The flowers are dark red-purple, so they show more of a pink color from a distance.

Flowering Plum 'Thundercloud'
Prunus cerasifera

Height: 18-20'

Width: 15-20'

Zone: 4

Flower: pink

Water/Soil: average, well
drained

A stunning landscape specimen with splendid coppery purple foliage that holds its color into fall. Pale pink, single blooms blanket the stems in the spring before the foliage emerges. Produces small, red edible fruit. A wonderfully versatile tree. Useful in all areas of landscape, including lawn.

Flowering Plum 'Krauter Vesuvius'
Prunus cerasifera

Height: 18' **Width:** 15'

Zone: 4

Flower: light pink

Water/Soil: average, well
drained

This remarkable tree is perhaps the most colorful of all flowering plums! Beautiful dark purple-black summer foliage is preceded by a profusion of showy light pink flowers in spring. A phenomenal ornamental accent for landscapes that seldom produces fruit.

Flowering Pear 'Javelin'
Pyrus

Height: 30' **Width:** 10'

Zone: 4

Flower: white

Fall Color: purple to
maroon

Soil/Water: average, well
drained

The most columnar pear we have seen, it stays narrow as it matures. Unique foliage that emerges purple and matures to bronze green in the heat of summer. Developed at North Carolina State University, this fire blight resistant pear is a great addition to the corner of a building or for use on narrow streets.

Flowering Pear 'Chanticleer/Cleveland'
Pyrus calleryana

Fall Color

Height: 35' **Width:** 15'

Zone: 4

Fall Color: russet red

Water needs: well drained

Great tree for park strip planting, as it has a dense, narrow branching habit. Beautiful white flowers in spring. Nice red fall color.

Flowering Pear 'Red Spire'
Pyrus calleryana

Height: 30' **Width:** 20'

Zone: 5

Fall Color: yellow to red

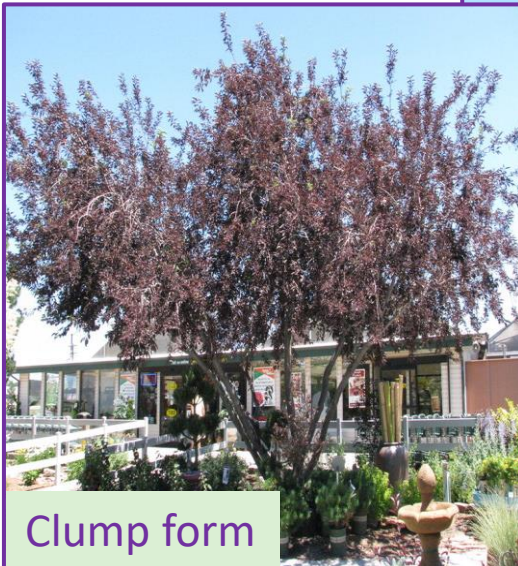

Water: well drained

A symmetrical shape and tight branching habit gives this tree a formal appearance. A good improvement over Bradford, as it stays smaller and narrower.

Chokecherry 'Canada Red'
Prunus virginiana

Clump form

Height: 20-25'

Width: 15-18'

Zone: 3

Flower: white

Water needs: very versatile

Very hardy and easy to grow tree. Foliage changes from green in spring to a dark purple as the weather warms. In late spring, white, bottle brush-like flowers with a nice, mildly sweet fragrance appear followed by tiny black fruit that is loved by songbirds.
