

Coneflower
Echinacea

Height: 15" - 25"

Width: 15"-20"

Zone: 4-7

Sun Exposure: Full Sun

There are a vast amount of coneflower varieties grown for home gardens, and a rainbow of coneflower colors. This plant is well known for its hardy nature and vibrant flowers that often feature a distinct spiky, cone-shaped center surrounded by petal rays.

Tickseed
Coreopsis

Height: 2'-3'

Width: 1'-2'

Zone: 4-7

Sun Exposure: Full Sun

If you're looking for a low-maintenance, drought-tolerant, long-blooming flower to fill a bed or line a border, coreopsis plants are a perfect choice. Overall, coreopsis plants don't require much care when grown in their preferred environment.

Catmint
Nepeta

Height: 10"-24"

Width: 12"-24"

Zone: 4-7

Sun Exposure: Full Sun

Catmint is a perennial in the mint family with blue/purple flowers that bloom in late spring, and with proper care, they don't stop until fall! This perennial is a great choice for beginners. It is heat and drought tolerant, loved by pollinators and a great choice for any sunny garden.

Shasta Daisy
Leucanthemum

Height: 2'-3'

Width: 1'-2'

Zone: 4-7

Sun Exposure: Full Sun

Shasta daisies are more robust, with larger flowers and a longer bloom time. There are dozens of varieties, with different plant sizes and single or double flowers. Their height can vary from 6 to 48 inches tall in sizes suitable for small urban lots. The sturdy stems and long vase life make Shasta daisies superb cut flowers.

Black Eyed Susan
Rudbeckia

Height: 1'-3'

Width: 1'-2'

Zone: 4-7

Sun Exposure: Full Sun

Beloved by pollinators, black-eyed susans generally bloom from June to August, often blanketing open fields with their golden-yellow beauty. In the garden, they do well in landscapes, borders, butterfly gardens, or containers. Also, they are outstanding cut flowers.

Blanket Flower
Gaillardia

Height: 24"

Width: 20"

Zone: 4-7

Sun Exposure: Full Sun

Blanket flower, also known as gaillardia, is an easy-to-grow, short-lived wildflower with richly colored, daisy-like blooms. This garden favorite puts out large showy blossoms in shades of orange, red, yellow, white, purple, and peach throughout the warm season.

Dianthus
Dianthus

Height: 10"-20"

Width: 24"

Zone: 4-7

Sun Exposure: Full Sun

Dianthus flowers bring nice fragrance and color to sunny borders or containers. Besides being hardy and adaptable, they are also long-blooming and will flower prolifically through the summer season if you deadhead the faded flowers.

Yarrow
Achillea millefolium

Height: 2'-3'

Width: 2'

Zone: 4-7

Sun Exposure: Full Sun

Yarrow is a native North American plant that is popular with pollinators and practically carefree, making it perfect for borders, ground covers, and open meadows. The flowers may be yellow, red, pink, or any shade in between. Yarrow is pest-resistant and drought-resistant

Foxglove
Digitalis purpurea

Height: 3'-4'

Width: 1'-2'

Zone: 4-7

Sun Exposure: Full Sun
to Part Shade

Foxglove is a stately flower with tall, elegant spikes covered in bell-shaped blossoms. The flower blooms from late spring through midsummer and then dies. Therefore, for continuous blooms, plant it for two consecutive years.

Beebalm
Monarda

Height: 2'-4'

Width: 2'-3'

Zone: 4-7

Sun Exposure: Full Sun

Bee balm is a native perennial that flowers in summertime. Given its height, bee balm makes for an excellent background plant in a flower bed. Beebalm performs best in full sun and well-draining soils.

Lavender
Lavendula

Height: 2'-4'

Width: 2'-3'

Zone: 4-8

**Sun Exposure: Full to
partial Sun**

Lavender makes a stunning addition to borders and perennial gardens, providing sweeping drifts of color from early summer into fall. With its silvery-green foliage, upright flower spikes, and compact shrub-like form, lavender is ideal for creating informal hedges.

Iris
Asparagales

Height: 2'-3'

Width: 2'

Zone: 4-8

**Sun Exposure: Full to
partial sun**

The tall, beautiful iris flower comes in many magical colors. Despite its divine origins, this beautiful flower is rugged, reliable, and easy to grow. Most irises flower from late spring to early summer. Irises attract butterflies and hummingbirds and make lovely cut flowers.

Delphinium
Delphinium

Height: 2'-6'

Width: 2'-3'

Zone: 4-8

Sun Exposure: Full to
partial sun

The stalwart of many summer flower gardens, these showy perennials are grown for their long, colorful spikes in blue and other gorgeous hues. The blue delphinium is most common, but varieties also come in gorgeous shades of violet, pink, white, red, and purple.

Veronica
Speedwell

Height: 1'-4'

Width: 2'-3'

Zone: 4-8

Sun Exposure: Full sun

Veronica, also called speedwell, is a carefree and easy-to-grow perennial with vertical or groundcover forms and blooms of purple, blue, pink, or white. There are many types of speedwells, ranging from groundcovers only a few inches tall to upright plants with tall, spikey blooms.

Sedum 'Autumn Joy'
Stonecrop

Height: 1'-2'

Width: 18"-24"

Zone: 4-8

Sun Exposure: Full sun

'Autumn Joy' Sedum produces delicate bright-pink flowers on large heads that age into a beautiful copper color as fall approaches. Easy to care for, very adaptable, and a popular stand-in for shrubs, this sedum lasts and lasts when other plants begin to wane.

Salvia
Salvia

Height: 1'-4'

Width: 1'-3'

Zone: 4-8

Sun Exposure: Full sun

Perennial salvias (aka sage) are heat-loving, deer-resistant plants that thrive from midsummer through fall. Their flowers come in a range of colors, including purple, blue, red, pink, and white.

Coral Bells
Heuchera

Height: 8"-20"

Width: 12"-24"

Zone: 4-8

Sun Exposure: Shade

Coral bells is a perennial foliage plant, with new varieties introduced every year. This plant forms round mounds with a woody rootstock at their base and small bell-shaped flowers that begin in spring or early summer on the tall stems.

Hosta
Hosta

Height: 1'-3'

Width: 1'-3'

Zone: 4-8

Sun Exposure: Shade

Hostas are hardy perennials with attractive foliage. They're perfect for shady and long-lived gardens—some may even outlive the gardener! While hostas require little attention, we advise cutting back the plants by early winter to avoid pest damage.

Anemone
Anemone

Height: 1'-2'

Width: 1'-2'

Zone: 4-8

Sun Exposure: Shade

Anemones are able to provide flowers throughout the growing season. These low-growing plants produce tall stems of flowers, making them suitable for many locations across the garden. They are perfect for borders, containers and raised beds.

Brunnera
Brunnera macrophylla

Height: 1'-2'

Width: 2'-3'

Zone: 4-8

Sun Exposure: Shade

Brunnera, commonly known as Siberian Bugloss, is a versatile and beautiful perennial. It adds a touch of elegance to any garden and is an easy care and year-round interest plant, perfect for the shade.

Bleeding Heart
Dicentra

Height: 1'-3'

Width: 2'-3'

Zone: 4-8

Sun Exposure: Shade

The bleeding heart flower is native to Asia and gets its common name from its heart-shaped pink blooms that dangle from long, arching stems. In a typical growing season, it will start flowering in the spring, producing around 20 small flowers

Hellebore
Helleborus

Height: 1'-2'

Width: 1'-2'

Zone: 4-8

Sun Exposure: Shade

Prized for their abundant winter or early spring blooms and attractive foliage, Hellebore are great additions to the shade garden. Most feature evergreen foliage that remains green year-round.
